

Dear Sir, regarding the current resurgence of LPFM stations, our family would like to let the FCC know how stations like K-LOVE have been a very important part of our lives. K-LOVE is a station that is unique in the way they serve those of us that really enjoy the Christian Contemporary music. We also enjoy having a station where we can listen to some positive music without worrying about the message it is passing to our family. We are concerned about the effect of losing a resource like K-LOVE if it should be replaced by an LPFM station that doesn't provide the same kind of programming K-LOVE is giving us now. In the interest of making sure we continue to get the great music through K-LOVE right now, please do not replace it with any LPFM stations.
